Gender Equality At Sealmatic

We are now hiring female candidates in the following positions:

**Inside Sales Coordinators
Senior Design Engineers
Quality Assurance Engineers
Mechanical Draughtswoman**

Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.

There has been progress over the last decades in India: More girls are going to school, fewer girls are forced into early marriage, more women are serving in parliament and positions of leadership, and laws are being reformed to advance gender equality.

Female empowerment is all about equipping women and allowing women to make all the decisions related to their life. Empowerment includes raising women's status through education, career, literacy, training, and other aspects of life.

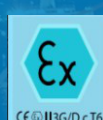

All businesses stand to benefit from greater equality for women. Women are key to the world's shared success. As pillars of their communities, women invest a sizable portion of the income they earn in the health and education of their children and their local economies, which creates a tremendous economic impact.

We at Sealmatic are committed to our ideology on **Women Empowerment with the following fundamentals as core to our cause:**

- 1. Give women equal pay**
- 2. Let women speak**
- 3. Give women opportunities**
- 4. Don't tolerate sexism**
- 5. Treat women as professionals**
- 6. Acknowledge women's successes**
- 7. Stop treating women differently**
